TYME TRAINING & DEVELOPMENT

TRAINING YOU MOST EFFECTIVELY

Mission Vision Values

To offer differentiated learning and development products and services that adds value to our clients. To build long term partnerships with our clients by being centred around their needs and delivering quality work in the most cost effective manner, every time.

Our Vision

To be the institution that provides the most effective training by enhancing and developing skills empowerment and allowing all participants to believe in themselves.

Our Mission

To provide quality training and the best customer service to be the top preferred supplier in the market and to endeavour to form solid relationships with our clients by maintaining a high service level agreement by ensuring updated learner material content and assistance where required.

Our Goal

To develop learners that will take each individual step out of their comfort-zone and into their confident-zone.

Our Objectives

- ✚ Delivering demand-driven training through various training solutions by utilising suitably qualified academic and administrative staff.
- ✚ Providing education and training aligned to current global best practices, which seek to continuously improve the quality of teaching and learning.
- ✚ Providing cost-effective training solutions which will contribute positively to bottom-line results.
- ✚ Providing flexible and affordable training solutions to broaden access to our institution and its services.
- ✚ Remaining directly aligned and responsive to the requirements of the various regulators, professional bodies and the recognised sub-frameworks in South Africa.

- ✚ Remaining committed to quality assurance: in the content of our programmes, assessment and moderation processes, the means of delivery, the support offered to students, information and data security, administration processes and certification.
- ✚ Promoting interactivity through cutting-edge technologies; bridging the geographical- and pedagogical-divide through the application of advanced learning methodologies and systems; utilisation of advanced logistical and administrative support procedures; and the application of a holistic student support model that seeks to promote early identification of student disengagement.
- ✚ Striving to be a socially responsible institution that contributes positively to the economy and society.
